

SACRED BEAN

LIFE GIVING COFFEE

Sacred Bean Coffee is a social enterprise initiative pioneered and run by ex-offenders. We work with people overcoming offending behaviours, teaching them how to source, roast, brew and retail ethical, great tasting, coffee.

We are passionate about providing opportunities for people to learn new skills or transfer old skills to enhance future employment opportunities. Like the potential locked up inside every bean, we believe every individual has the potential locked inside of them, and that they deserve a 'second crack' at life. Provided with the right support network and breaks in life, people can and do alter their stories.
