

# MONEY SORTED IN D2N2

## Year three summary statistics

Money Sorted in D2N2 (Derby, Derbyshire, Nottingham, Nottinghamshire) helps unemployed and economically inactive people with their money management in order to improve financial well-being. The project is delivered through a team of Personal Navigators across the region who work on a one-to-one basis with participants.

### Participant profile

Participants accessing the service are often affected by the following issues:

**37.7%**

participants have not completed their secondary education

**67%**

participants feel that they are living in a debt situation which is unmanageable.

**77%**

participants are affected by a mental health issue\*

**65%**

participants 'regularly borrow money' or 'sometimes borrow money' to buy food or pay for other necessary items because they have run short of money.

### Outcomes

Over **2,000** participants have now accessed the project for support.

**80%** of participants have developed personal/ household budgets with the support of their Personal Navigator.

**78%** of participants report and demonstrate increased financial-management skills and know where to get ongoing financial advice and support

**56%** of participants have been able to achieve a measurable increase in household income AND a reduction in debt.

**62%** Participants report increased available income for spending in local shops and business

On average participants have increased their disposable income by **£53.56** a month.

**What our participants have said...** 'My Personal Navigator has been very lovely and understanding and listened to my concerns and the goals I wanted to achieve. This has made a big difference to me and has got me back on track and understanding where I need to be with payments.'

'I came to St Ann's Advice for a course of help in budgeting and claiming, because I was going broke way prematurely each fortnight. My Navigator has helped me through a lot.'
